

## **GAS SUPPLY SECURITY Lilydale Gas Pipeline**

**To meet current & rapidly growing demand for gas in the outer eastern suburbs and to increase security of supply it has become necessary to increase the capacity of existing gas transmission pipelines that transport natural gas to the region.**

Multinet Gas has contracted Jemena Asset Management to undertake the design, construction, operation & maintenance of a new transmission link approximately 10 km in length along Victoria Rd connecting the Outer Ring Main in Yarra Glen to the Lilydale Branch Pipeline at Maroondah Hwy.

The pipeline will be constructed in accordance with the Pipelines Act 2005 and Pipelines Regulations 2007. The relevant legislation also calls upon the Environment Effects Act 1978, the Planning and Environment Act 1987 the Land Acquisition and Compensation Act 1986, and Aboriginal Cultural Heritage Legislation at State and Commonwealth levels.

Since May 2010 the route survey has been completed including soil sampling, cultural heritage and environmental surveys. A Licence for the pipeline has now been applied for by Multinet with construction to be undertaken between August and December 2011.

**An second information display will be set up at Chirnside Park Shopping Centre: 9:00am to 4:30pm Thur 31 March & Fri 1 April 2011.** Project representatives will be available to explain the project, answer questions and receive community feedback.

Landowners who may be affected will have been contacted in person by a Jemena representative.

**Further enquiries Tel: 8551 7116**
