\$800**

CHOOSE NATURAL GAS

Early Connection Incentive

Multinet Gas with the support of the State Government of Victoria's \$70 Million Natural Gas Extension Program will reticulate natural gas to five towns in the South Gippsland Region. The five towns are Lang Lang, Korumburra, Leongatha, Wonthaggi and Inverloch. Multinet has contracted Alinta Asset Management to project manage the construction and maintenance of the new gas network.

Applications for connection to natural gas are now available through a gas energy retailer of your choice.

The roll out of natural gas is now commencing. For further information on where gas mains will be installed, please visit www.multinetgas.com.au or contact 1300 131 689 (Monday to Friday 8.30am – 5.30pm).

By connecting to natural gas, residents and businesses will have the opportunity to select from a wider range of appliances such as heaters, hot water units and cooktops. Natural gas is safe, reliable, convenient, economical and environmentally friendly.

Residents are encouraged to submit their applications as soon as possible as incentives are limited and applications will be processed in order of receipt.

Current Gas Retailers

There are a number of current licensed gas retailers. When you make your decision to connect to natural gas, you should refer to the Essential Services Commission's website at www.esc.vic.gov.au which will give you up to date industry information regarding the gas retailers available or you can call 1300 131 689, Monday to Friday 8.30am – 5.30pm.

Further information about the Multinet Gas Extension Project can be obtained from:

- Your Local Council or view their website
- Multinet Gas website at www.multinetgas.com.au
- Alinta website at www.alinta.net.au
- Email southgippslandgas@alinta.net.au
- Phone 1300 131 689 (Monday – Friday 8.30am – 5.30 pm)

Early Connection Incentives

To assist residents to connect to natural gas, Multinet Gas will be offering substantial financial incentives. These incentives are only available for a limited time (up to 6 months from when gas is available to you or when the total incentives fund is exhausted, whichever occurs first) and only when electing to connect to natural gas.

These incentives are limited and residents are encouraged to submit their applications as soon as possible, as applications will be processed in order of receipt.

There are two types of incentives and both will be in the form of financial rebates.

REBATE ON CONVERSION COSTS

A rebate of up to a maximum of \$500 (one off offer) per connection is available for each property. This may be used for:

- The cost of conversion of appliances to natural gas and/or
- Installation of a new or extension to a fitting line and/or
- The additional cost that may be applicable for a service line beyond the standard 20 metres inside the property boundary up to a maximum of 50 metres.

REBATE ON APPLIANCE COSTS

A rebate up to a maximum of \$300 (one off offer) per property is available to assist with the upgrade or purchase of new appliances to replace those appliances that cannot be converted to natural gas. These may include:

- Cooktops
- Flueless Heaters
- Hot Water Systems.

(The rebate is not applicable to any other appliances apart from the listed)

To find out whether your appliances can be converted to natural gas, you should contact a licenced gas fitter, who can give you an independent assessment.

OBTAINING THE REBATES

To obtain the rebates, the attached application form will need to be completed and submitted in conjunction with:

- Copy of the itemised invoice for the cost of conversion (an invoice and Certificate of Compliance is required) and
- Copy of the receipt for the purchase of the natural gas appliance (note maximum of one appliance only)

The rebates (while available) can only be obtained once connection is verified, which is when a gas meter is hung and a Meter Installation Registration Number (MIRN) is created in the system.

- **The rebate is not applicable to residents outside the original scope of works where any new additional gas extensions are required.**

TOTAL INCENTIVE AVAILABLE IS:	MAXIMUM
<i>Rebate on conversion costs</i>	\$500
<i>Rebate on appliance costs</i>	\$300
TOTAL AVAILABLE PER PROPERTY	\$800

ELIGIBILITY TO RECEIVE THIS REBATE WILL BE SUBJECT TO A NUMBER OF CONDITIONS INCLUDING:

- There is a \$500 maximum rebate per natural gas connection (maximum one per property) to cover the cost of conversion. This will be in the form of a reimbursement (which can also be claimed by your gas contractor/gas retailer on your behalf).
- A copy of the itemised tax invoice from a licenced gas fitter for the conversion costs will be required to be attached with the form along with a Certificate of Compliance.
- A rebate up to a maximum of \$300 (one off offer) per property is available to assist with the upgrade or purchase of new appliances to replace those appliances that cannot be converted to natural gas (which can also be claimed by your gas contractor/gas retailer on your behalf).
- The incentive is only available to the resident/applicant named on the request form for a new natural gas connection in the designated towns (with verification).
- The incentives are only available for a limited time (up to 6 months from when gas is made available to you or when the total incentives fund is exhausted, whichever occurs first).
- Multinet Gas reserves the right to fully or partially withhold payment of any incentives if the incentive is no longer available, verification is not provided or Multinet Gas is not reasonably satisfied with the verification provided.
- Multinet Gas reserves the right to alter these conditions (including those related to the incentives) at any time without notice.
- Payments will be made via a cheque to the applicant within 20 business days of receipt of a fully completed application form (with appropriate verification).
- The rebate is not applicable to residents outside the original scope of works where any new additional gas extensions are required.

Easy Steps to Connect to Natural Gas

1. *You need to ensure that natural gas is available in your street/location (Maps are available from the Multinet Website www.multinetgas.com.au or contact 1300 131 689 Monday to Friday 8.30am – 5.30pm)*
2. *You will need to choose a gas retailer and enter into a supply contract with them. You can ring 1300 131 689 (Monday to Friday 8.30am – 5.30pm) for further information on their contact details.*
3. *Your gas retailer will coordinate with Alinta Asset Management the installation of the gas service line to your property.*
4. *You will need to arrange a qualified gas fitter to assess the suitability of your appliances or install new appliances and a fitting line to take the natural gas supply.*
5. *Your gas fitter will coordinate with your gas retailer to arrange for Alinta Asset Management to install the gas meter once you are ready to connect.*
6. *Your gas fitter will arrange final connection with Alinta Asset Management, which will include testing prior to commissioning.*
7. *Once this process is completed, a request can be made to Alinta Asset Management on the form (as attached) for the rebate to be paid (with all appropriate paperwork).*

Rebate Forms are also available from www.multinetgas.com.au or contact 1300 131 689 (Monday to Friday 8.30am – 5.30pm)

**REMEMBER,
PLEASE CONTACT YOUR GAS RETAILER
TO ARRANGE GAS CONNECTION.**
